## INTRODUCTION

The Intex Family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. Backed by excellent Customer Service, Intex also provides first-rate after sales support. The 100+ independently owned and locally operated companies that make up the Intex Family, all embrace this commitment to quality, service and price and are committed to working together to ensure the satisfaction of the families and individuals across the globe who enjoy these products. This has become the hallmark of Intex around the world.

As a true industry leader, Intex boasts state of the art factories, trained and motivated people, products that meet rigorous testing requirements, and a Customer Service organization that will go extra lengths to ensure our customers are satisfied and happy with their purchases.

When you purchase an Intex product you can be confident that you are buying the best product, at the best price, backed by the best Customer Service organization in the industry.

# 2016

Intex is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Our Airbed line is unmatched for breadth and beauty. With the introduction of our new innovative, patented Fiber-Tech™ Technology, we have engineered a way to combine durability with exceptional comfort, creating airbeds that rival the stability, support and comfort of a traditional mattress. The “Dura-Beam®” series utilizes superior Fiber-Tech™ interior construction to create a line of airbeds that are lighter, stronger, and more comfortable than an average airbed. With “PremAire®”, Intex has combined our manufacturing technologies with our engineering strengths of Fiber-Tech™ to bring you the most innovative, luxurious, and comfortable bed in the market today.

Our standard Comfort Rest® line consists of four series designed to meet all of your customers' needs: the “Outdoor” series is engineered for camping, travel, and all-around rugged use. It features stain-resistant materials, with beds perfectly suited to the outdoor environment. The “Inhome” series offers a wide selection of standard height and raised beds in a range of colors, sizes, and accessories to fit all decors and budgets. The “Premium” series features a wide variety of luxurious premium quality raised airbeds. Each airbed has been engineered and tested to provide you with superior functionality that guarantees the ultimate sleeping experience. And for the young at heart, our “Air Furniture” series comes with bright colors and fresh design concepts, guaranteed to attract a loyal following of young adults! Ask your Intex representative for any of our product catalogs – we are confident that you will agree that Intex's product line is unmatched in meeting your needs.

# Commitment to Excellence

100% of our airbeds are quality tested to be air tight before they leave our factory.

Intex's commitment to Excellence encompasses every single product that leaves our factory. We achieve this by maintaining the highest levels of quality assurance – such as inflating and testing every single airbed to ensure the Air Lock® guarantee. It's that simple.

Electromagnetic  
Compatibility  
Regular Production  
Surveillance  
www.intex.com  
ID: 400000000

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN15649 "Floating leisure articles for use on and in the water" (European standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)
- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)
- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric Spas" (USA standard for Spa)

Intex's commitment to Excellence extends to helping our environment and supporting the ecosystem. It begins with product design. Intex's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

Intex also operates one of the most comprehensive recycling programs in the industry. We are the first company in China to successfully obtain a license to ship consumers' returns in the original package back to China to be recycled. Therefore, used materials and product returns are prevented from going to landfills and instead re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

Intex designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption.

As a manufacturer, Intex knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our Factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. Intex has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, Intex has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at Intex are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.

# REDEFINING THE AIRBED

## INTRODUCING

# PremAire®

Elevated Series  
with Fiber-Tech™ Technology

Intex is proud to bring you a new level of luxury and innovation with the latest edition to our unrivaled airbed line, the PremAire® Elevated Series with Fiber-Tech™ Technology.

Built with our patented Fiber-Tech™ Technology, our PremAire® beds offer superb structural stability and support. The high-strength fibers provide an interior with amazing durability and unmatched comfort. The exterior of the mattress is made of laminated PVC to provide a high quality puncture resistant surface. Each mattress is covered in a pillow top that creates air pockets that cause air to flow smoothly and gradually across the surface for an unparalleled sleeping experience.

The bed's elevated height makes it easier to get in and out of each morning. For extra convenience, this bed comes with a powerful built-in electric pump for fast inflation and deflation. Our new revolutionary PremAire® mattress offers the perfect combination of luxurious comfort and best-in-class durability.

Perfect for camping with 6 C-cell batteries (not included)

# ROLL 'N GO™ BED

The Roll 'N Go™ bed offers the perfect ultra light weight sleep solution for your next camping trip.

## ULTIMATE OUTDOOR BED WITH PUMP

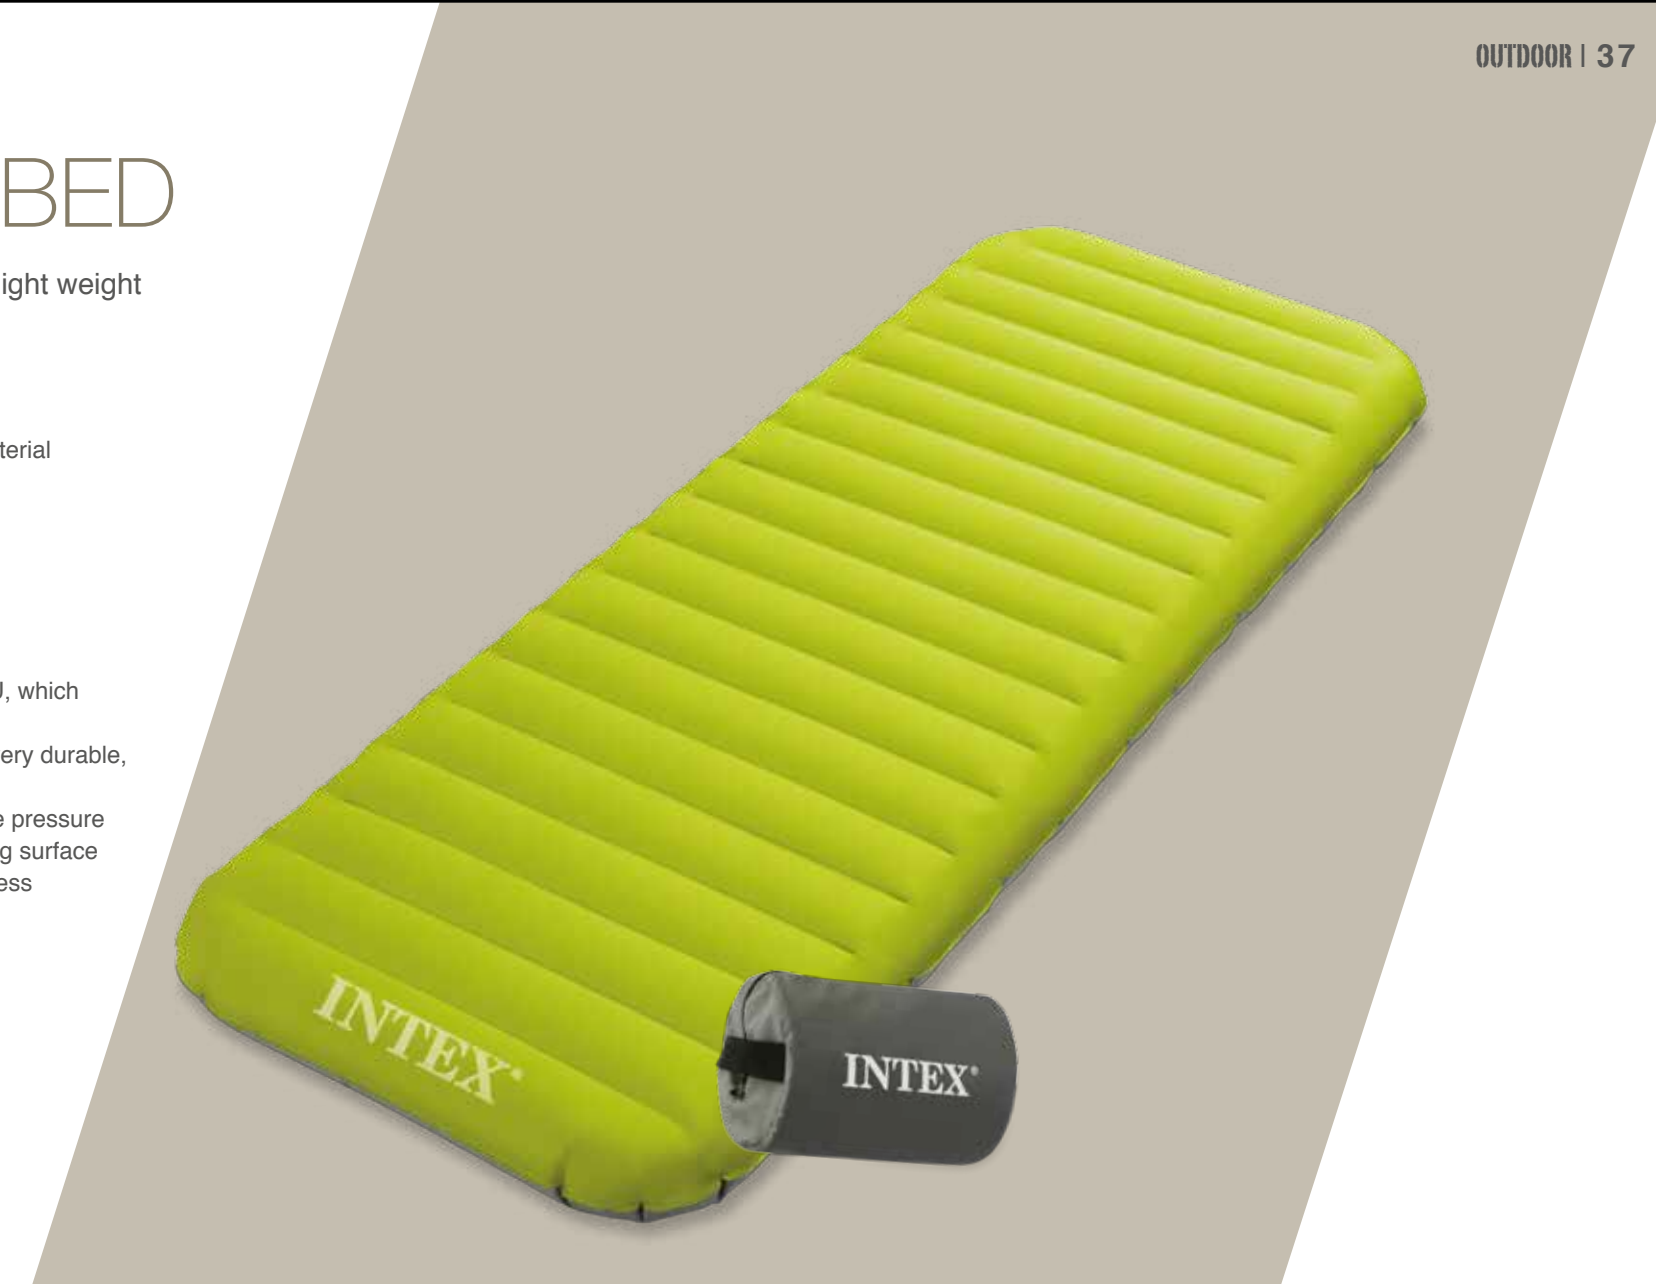

- Fiber-Tech™ interior construction
- Eco-friendly TPU laminated fabric – phthalate-free material
- Hand-held high output lightweight manual air pump
- Duffel bag with handle included

SHELF BOX FOLDS COMPACTLY

This PVC Free airbed is constructed of laminated TPU, which means it is:

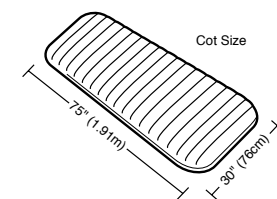

- Super Tough – Softens up the rough outdoors with a very durable, eco-friendly material
- Strong Support System – Inflates up to three times the pressure of a regular PVC junior-twin airbed for a firmer sleeping surface
- Ultra Lightweight – Weighs approximately one fourth less than a common junior-twin PVC constructed airbed

## MAXIMUM DURABILITY

The strong TPU (Thermoplastic Polyurethane) laminated material and innovative Fiber-Tech™ inner construction transform the toughest ground into a refreshing night's sleep. It retains elasticity in temperature as low as -4° F/-20° C.

Made of TPU – A PVC-free eco-friendly material

# DOWNY BED

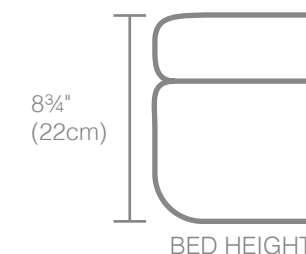

This airbed has a flocked top that provides a more comfortable sleeping surface. Its unique wave beam construction eliminates uncomfortable surface bumps and provides a flat, uniform sleeping surface. The Downy airbed can be inflated with either the built-in manual foot pump or a regular pump.

## BUILT-IN FOOT PUMP FOR CONVENIENCE

- Unique built-in bellow foot pump for convenience-no separate pump needed. Just step down to inflate and the pump springs back automatically for the next cycle
- New and improved foot pump construction allows for faster inflation
- 2-in-1 valve for inflating with optional electric or manual pumps
- Conventional mattress sizes (L x W) for more sleeping area and a better fit for sheets
- 8¾" (22cm) mattress thickness for extra soft comfort

6 ea, 13.6 lb (6.2 kg)

# ACCESSORIES

## ELECTRIC PUMPS

These Quick-Fill™ electric pumps have a sleek, aerodynamic design that fits perfectly in the palm of your hand, yet still inflate even the largest of inflatables in a breeze.

### Quick-Fill™ AC/DC Electric Pump features include:

- 3 interconnecting nozzles
- 12V DC & AC power adapter for easy Outdoor and Indoor use
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

#66631 (110-120V)  
#66632 (220-240V)

- Outdoor & Indoor Use
- AC or Car
- Nozzles Fit Any Valve Size

### Quick-Fill™ DC Electric Pump features include:

- 3 interconnecting nozzles
- Plug into 12V DC automobile cigarette lighter or 12V DC accessory outlet
- ETL approved
- CE, GS approved
- Shelf box

#66626 (12V)

- Outdoor Use
- 12V Car Adapter
- Nozzles Fit Any Valve Size

### Quick-Fill™ AC Electric Pump features include:

- 3 interconnecting nozzles
- Thermo protector incorporated for safety
- ETL approved (110-120V)
- CE, GS approved (220-240V)
- Shelf box

#66619 (110-120V)  
#66620 (220-240V)

- Indoor Use
- 110-120V AC 220-240V AC
- Nozzles Fit Any Valve Size

### Quick-Fill™ RECHARGEABLE Pump features include:

- 3 interconnecting nozzles
- A 12V DC power adapter for vehicle charging and a household AC power adapter for home charging
- 12V DC to inflate and deflate while recharging
- Automatic over-charge cut off for safety protection
- New shape with easy carry handle
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

#66621 (110-120V)  
#66622 (220-240V)

- Built-in Rechargeable Battery
- Outdoor & Indoor Use
- AC or Car
- Nozzles Fit Any Valve Size

### Quick-Fill™ AC Electric Pump features include:

- 3 interconnecting nozzles with hose
- Thermo protector incorporated for safety
- New shape with easy carry handle
- ETL approved (110-120V model)
- CE, GS approved (220-240V model)
- Shelf box

#66623 (110-120V)  
#66624 (220-240V)

- Indoor Use
- 110-120V AC 220-240V AC
- Nozzles Fit Any Valve Size

### Quick-Fill™ High PSI Indoor/outdoor Electric Pump features include:

- 3 interconnecting nozzles with hose
- For both indoor and outdoor use - plugs into cigarette lighter or household electrical outlet
- 2-speed switch
- Inflates athletic balls up to 12 psi
- Detachable DC cigarette cord
- ETL approved (110-120V)
- CE, GS approved (220-240V)
- Shelf box

#68608 (110-120V)  
#68609 (220-240V)

- Outdoor & Indoor Use
- AC or Car
- Nozzles Fit Any Valve Size

#68638

### Quick-Fill™ BATTERY Pump features include:

- 24% more air flow than previous version (#68639)
- Operates on 6 C-cell size batteries
- 3 interconnecting nozzles
- CE approved
- Shelf box

- Outdoor & Indoor Use
- 6 C Batteries Required (not included)
- Nozzles Fit Any Valve Size
