AIR MATTRESS COLLECTION

About Us

In 1966, a small California company began importing and marketing toys for kids. Today, that company has evolved into the global group of companies known as INTEX, now developing and manufacturing a mix of products that entire families can enjoy. Much has changed in our 60 years, but some very important things remain the same.

INTEX continues to deliver high-quality products that bring value to families worldwide. Our design process doesn't end until we're sure we have created a top-tier experience for our consumers—one that is safe, aesthetically pleasing, and enjoyable. Before our goods reach the market, we rigorously test them in state-of-the-art factories. From there, we set the scene for families in over 100 countries and territories to splash around in the sun or welcome guests into their homes.

INTEX air mattresses cater to a wide range of needs, from trail-ready camping mats to elegant guest beds—all designed with engineered durability and exceptional comfort as their guiding principles.

The Dura-Beam® Standard Series offers durable, supportive air mattresses at an attractive price point, while the Dura-Beam® Plus Series provides premium-quality raised models in a variety of styles. The Dura-Beam® Deluxe Series continues to build its reputation for luxury with enhanced sleeping surfaces and superior comfort.

For an extra touch of indulgence, PremAire® Airbeds feature a plush pillow top, blending aesthetic appeal with practical puncture resistance. Our camping mats are designed for versatility, whether indoors or on the trail, while our Air Furniture collection adds a pop of color and style—perfect for young adults looking to personalize their space.

Ask your INTEX representative for a product catalog—we're confident you'll find our lineup unmatched in quality, innovation, and comfort. INTEX remains dedicated to bringing people together for another 60 years and beyond—it's what we do best!

Commitment To Excellence

In our quest to deliver the highest-quality products that meet or exceed the expectations of our customers, INTEX devotes large-scale effort to even the smallest details. Our vision is to be the most recognizable, trusted and innovative company in our industry.

After more than 40 years, we know that vision requires ongoing hard work and fresh ideas. Every product we create meets legal quality and safety requirements, but we demand more of ourselves with layers of rigorous testing and constant reinvention.

All products with the Air Lock™ icon are quality tested to be air tight before they leave our factory

Sustainable resource management is a growing part of our identity. Through every step of manufacturing, the environment is top of mind.

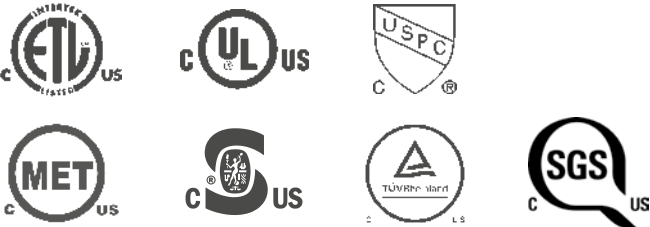

Our manufacturing waste repurposing program prevents used materials and scraps from going into landfills. Instead, these by-products reenter our manufacturing pipeline with up to 10% of our PVC recycled annually.

In addition, INTEX designs all of the packaging for our products, often revisiting our production methods to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization—which has a positive effect on fuel consumption and freight. We’ve even overhauled the packaging style of select product lines to use significantly less non-recyclable lithography, in favor of a “brown box” approach.

We’ve also implemented water-based printing, which means fewer toner cartridges in landfills and less-toxic screening results.

Lastly, our increased use of thermoplastic polyurethane (TPU) gives us an easier recycled, more biodegradable material to work with.

- Here are some of the regulations and standards we conform to:
- Regulation (EC) No.1907/2006 “Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)”
 - Regulation (EU) No. 2011/65 “Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS)”
 - Regulation (EU) No. 2012/19 “Waste Electrical and Electronic Equipment (WEEE)”
 - EN 60335-1: Safety of household and similar electrical appliances —General requirements
 - ASTM F2755: Standard Safety Specification for Cautionary Labeling of Inflatable Air Mattresses
 - UL1450 “Electric inflators” (USA standard for electric inflators)

FIBER-TECH™ INTERIOR CONSTRUCTION

HIGH-STRENGTH POLYESTER FIBERS

Designed for Comfort Engineered for Durability

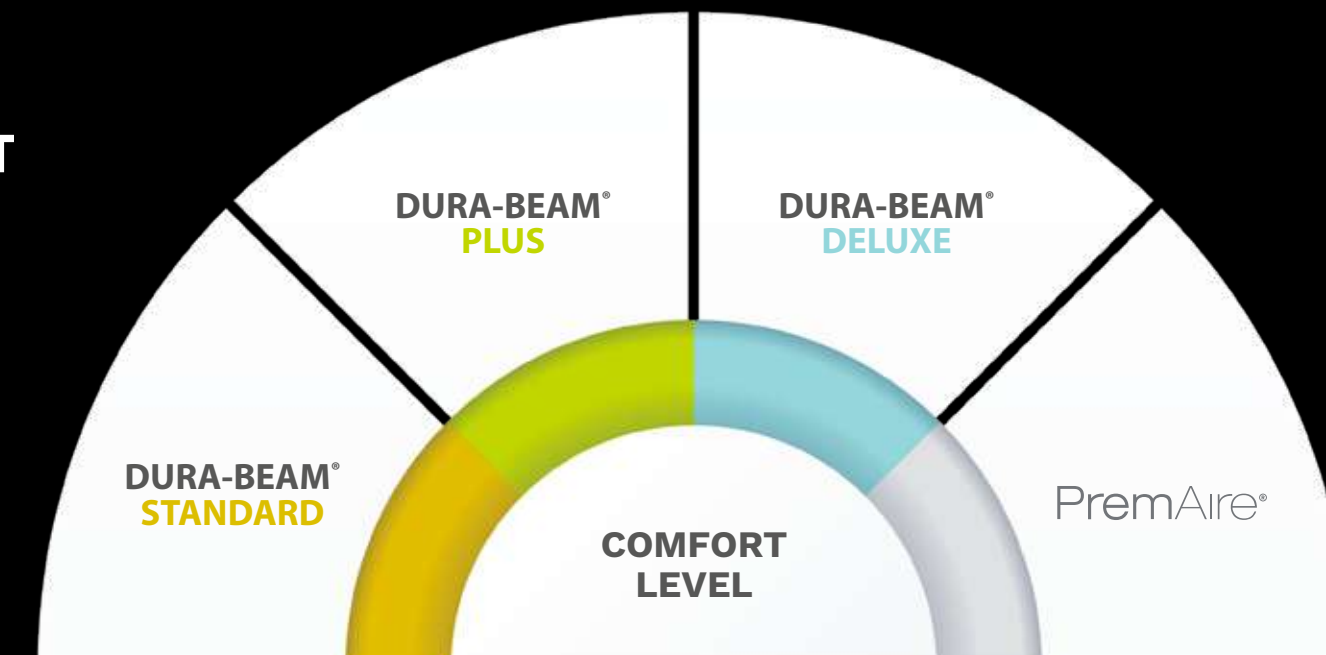

Our innovative, patented Fiber-Tech™ Technology airbeds are comprised of thousands of high-strength polyester fibers. Unlike traditional airbed construction, these high-strength polyester fibers do not stretch over time, resulting in amazing durability for years of lasting comfort. Fiber-Tech™ interior construction provides the ideal firmness for superb support and rejuvenating sleep.

Standard interior construction has been enhanced with lightweight, high-strength fibers for amazing durability and comfort.

U.S. Patent No. 8,562,773 / U.S. Patent No. 9,156,203 / U.S. Patent No. 9,802,359

FIND YOUR PERFECT COMFORT

DURA-BEAM® Plus Series

ELEVATE YOUR SLEEP EXPERIENCE

Flush with thoughtful touches, Dura-Beam® Plus air mattresses offer next-level comfort in a convenient package. Elevated sleep surfaces range in height from 14"–20". Outside, enhanced edge construction keeps sleepers in place while inside, our patented Fiber-Tech™ construction brings together thousands of durable threads in beams of support. For easy and quick inflation, these full-featured air mattresses boast a powerful internal pump.

Prestige Mid-Rise

At a convenient 14" height, this compact and lightweight air mattress is built for fantastic sleep on the go. Inflation is easy with its built-in FastFill™ USB pump. Inside, our patented Fiber-Tech™ construction brings together thousands of durable, supportive threads.

Elevated With Internal Pump

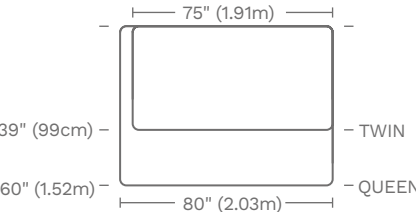

- Fiber-Tech™ Technology
- Mattress is raised 14" (36cm) from the floor for convenience
- Unique bottom ring construction provides superior stability
- Powerful built-in USB pump for quick and easy inflation and deflation
- Powered by any 5V USB power source rated 2 Amp and higher, including smartphone chargers, 12V USB car chargers, or portable power banks

FastFill™ USB pump

Easy inflation and deflation

Inflates with built-in USB pump or manual pump

Deluxe Pillow Rest

This air mattress features easy access and a level of comfort comparable to some traditional mattresses, thanks to its 16½" height and velvety sleep surface. It also sports top and bottom edge support, and a built-in pillow for a steady, soothing rest. And setup is easy because of its internal pump.

Elevated With Internal Pump

- Fiber-Tech™ Technology
- Mattress is raised 16½" (42cm) from the floor for convenience
- Built-in pillow for added comfort
- Unique edge construction provides superior stability
- Powerful internal pump for rapid inflation and deflation

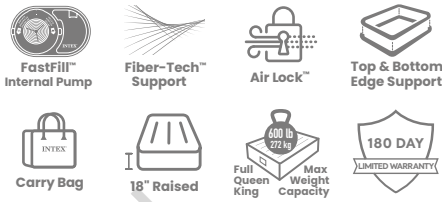

Raised Air Mattress

DURA-BEAM® Deluxe Series

UNPARALLELED COMFORT AND ELEGANCE

Our soft, dual-layer comfort top engages the contours of the body for a transformative rest. Each air mattress in this series features a raised height for easy access. With a powerful internal pump, inflation and deflation is easy, so an enjoyable sleep is quickly within reach.

Comfort Plush

Houseguests appreciate the luxurious rest afforded by this eminently cozy air mattress. Its sleep surface offers a dual-layer for added comfort, and top-and-bottom edge support for stability. Inside, Fiber-Tech™ construction brings thousands of durable threads together to form supportive beams.

Comfort-Plush Horizontal Beam Air Mattress

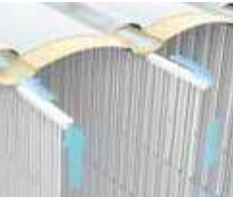

- Fiber-Tech™ Technology
- Mattress is raised 13" from the floor for convenience
- Dual-layer comfort top provides smooth sleeping surface
- Unique edge and bottom ring construction provide superior stability
- Powerful internal pump for rapid inflation and deflation
