AIR MATTRESS COLLECTION

# INTEX®

# About Us

In 1966, a small California company began importing and marketing toys for kids, laying the foundation for what is today a global group of companies known as INTEX®. Over the past 60 years, INTEX® has been developing and manufacturing a broad range of products that entire families can enjoy. Much has changed in our 60 years, but some very important things remain the same.

INTEX® continues to deliver high-quality products that bring value to families worldwide. Our design process doesn't end until we're sure we have created a top-tier experience for our consumers—one that is safe, aesthetically pleasing, and enjoyable. Before our goods reach the market, we rigorously test them in state-of-the-art factories. From there, we set the scene for families in over 100 countries and territories to splash around in the sun or welcome guests into their homes.

INTEX® air mattresses cater to a wide range of needs, from trail-ready camping mats to elegant guest beds—all designed with engineered durability and exceptional comfort as their guiding principles.

The Standard Series offers durable, supportive air mattresses at an attractive price point, while the Plus Series provides premium-quality raised models in a variety of styles. The Deluxe Series continues to build its reputation for luxury with enhanced sleeping surfaces and superior comfort.

For an extra touch of indulgence, PremAire® Airbeds feature a plush pillow top, blending aesthetic appeal with practical puncture resistance. Our camping mats are designed for versatility, whether indoors or on the trail, while our Air Furniture collection adds a pop of color and style—perfect for young adults looking to personalize their space.

Ask your INTEX® representative for a product catalog—we're confident you'll find our lineup unmatched in quality, innovation, and comfort. INTEX® remains dedicated to bringing people together for another 60 years and beyond—it's what we do best!

# Commitment To Excellence

In our quest to deliver the highest-quality products that meet or exceed the expectations of our customers, INTEX® devotes large-scale effort to even the smallest details. Our vision is to be the most recognizable, trusted and innovative company in our industry.

After more than 40 years, we know that vision requires ongoing hard work and fresh ideas. Every product we create meets safety requirements, but we demand more of ourselves with layers of rigorous testing and constant reinvention.

All products with the Air Lock® icon are quality tested to be air tight before they leave our factory

Sustainable resource management is a growing part of our identity. Through every step of manufacturing, the environment is top of mind.

Our manufacturing waste repurposing program prevents used materials and scraps from going into landfills. Instead, these by-products reenter our manufacturing pipeline with up to 10% of our PVC recycled annually.

In addition, INTEX® designs all of the packaging for our products, often revisiting our production methods to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization—which has a positive effect on fuel consumption and freight. We've even overhauled the packaging style of select product lines to use significantly less non-recyclable lithography, in favor of a “brown box” approach.

We've also implemented water-based printing, which means fewer toner cartridges in landfills and less-toxic screening results.

Lastly, our increased use of thermoplastic polyurethane (TPU) gives us an easier recycled, more biodegradable material to work with.

Here are some of the regulations and standards we conform to:

- Regulation (EC) No.1907/2006 “Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)”
- Regulation (EU) No. 2011/65 “Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS)”
- Regulation (EU) No. 2012/19 “Waste Electrical and Electronic Equipment (WEEE)”
- EN 60335-1: Safety of household and similar electrical appliances —General requirements
- ASTM F2755: Standard Safety Specification for Cautionary Labeling of Inflatable Air Mattresses
- UL1450 “Electric inflators” (USA standard for electric inflators)

# INNOVATIVE FIBER-TECH™ TECHNOLOGY

An Incredible Night's Sleep Starts With a Single Thread...

MORE DURABLE

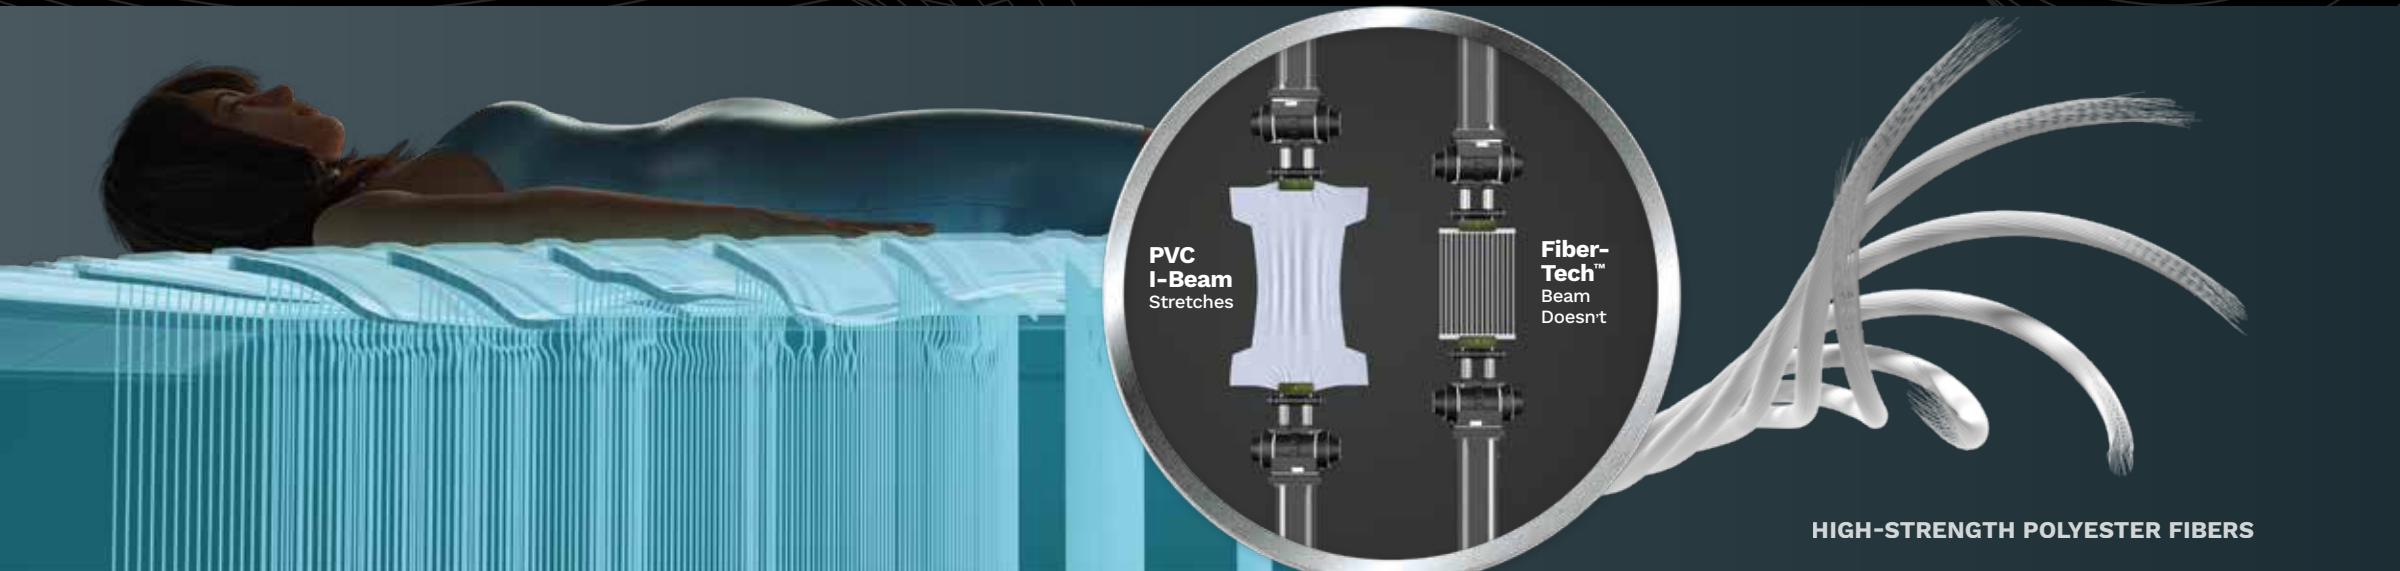

MORE SUPPORTIVE

LIGHTER

...than a traditional airbed

## Designed for Comfort Engineered for Durability

Our innovative, patented Fiber-Tech™ Technology airbeds are comprised of thousands of high-strength polyester fibers. Unlike traditional airbed construction, these high-strength polyester fibers do not stretch over time, resulting in amazing durability for years of lasting comfort. Fiber-Tech™ interior construction provides the ideal firmness for superb support and rejuvenating sleep.

## FIND YOUR PERFECT COMFORT

INTEX® offers a comprehensive range of air mattresses, covering a variety of comfort options to provide the **PERFECT SLEEP SOLUTION** for indoor or outdoor occasions.

### STANDARD

All the basic comfort a person needs.

### PLUS

A step up with added features.

### DELUXE

For those who require a little luxury.

### PremAire®

Top-of-the-line comfort innovation.

# Standard Series

## **The Anywhere Sleep Solution**

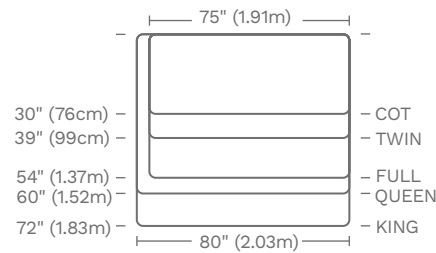

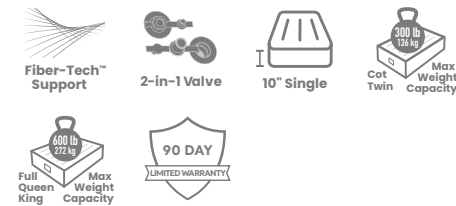

Wherever a person is—hosting overnight guests or camping outdoors— Standard air mattresses feel like home. The secret: Our patented Fiber-Tech™ interior construction brings together thousands of hearty strands to form supportive beams of comfort and a bed height of up to 12".

# Electric Pumps

**66647/E/EV QuickFill™ 200R Tiny Air Pump**

- 3.7V 2AH Li-ion rechargeable battery
- Inflates and deflates
- Lightweight and compact design
- Suitable for indoor and outdoor use
- Includes carabiner hook for easy carrying
- Built-in LED light doubles as a lantern
- 2 interconnecting nozzles
- CE-approved
- Shelf box

**66616/E/EV QuickFill™ USB150 Air Pump**

- Powered by 5V USB-A power source rated 2A and higher
- Inflates and deflates
- Lightweight and portable
- 2 interconnecting nozzles
- CE-approved
- Shelf box

**66637/E/EV QuickFill™ USB200R Rechargeable Air Pump**

- Powered by 5V USB-A power source rated 2A and higher
- 4.8V 2AH Ni-MH
- Inflates and deflates
- Type A supports power bank, charging phone, USB lights etc
- Lightweight and portable
- 2 interconnecting nozzles
- CE-approved
- Shelf box

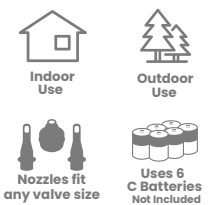

**66645E/EV 66646 QuickFill™ AC400 Electric Pump**

- Inflates and deflates
- Thermo protector incorporated for safety
- Lower noise level
- 2 interconnecting nozzles
- cSGS approved (110-120V)
- GS- and CE-approved (220-240V)
- Shelf box

**66638/E/EV QuickFill™ Battery Pump**

- 3 interconnecting nozzles
- Battery-powered for indoor and outdoor use
- Operates on 6 C-cell size batteries
- Inflates and deflates
- CE-approved
- Shelf box

**66633E/EV 66634 QuickFill™ AC/DC Electric Pump**

- 3 interconnecting nozzles
- Inflates and deflates
- 12V DC & AC power adapter for easy outdoor and indoor use
- cSGS approved (110-120V)
- CE-approved (220-240V)
- Shelf box

**66639E/EV 66640 QuickFill™ AC Electric Pump**

- 3 interconnecting nozzles
- Inflates and deflates
- Increased air flow and pressure with reduced power consumption
- Thermo protector incorporated for safety
- TUV approved (110-120V)
- GS- and CE-approved (220-240V)
- Shelf box

**66636/E/EV QuickFill™ DC Electric Pump**

- 3 interconnecting nozzles
- Inflates and deflates
- Plug into 12V DC automobile cigarette lighter or 12V DC accessory outlet
- cSGS approved
- CE-approved
