INTRODUCTION

The Intex Family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. Backed by excellent Customer Service, Intex also provides first-rate after sales support. The 100+ independently owned and locally operated companies that make up the Intex Family, all embrace this commitment to quality, service and price and are committed to working together to ensure the satisfaction of the families and individuals across the globe who enjoy these products. This has become the hallmark of Intex around the world.

As a true industry leader, Intex boasts state of the art factories, trained and motivated people, products that meet rigorous testing requirements, and a Customer Service organization that will go extra lengths to ensure our customers are satisfied and happy with their purchases.

When you purchase an Intex product you can be confident that you are buying the best product, at the best price, backed by the best Customer Service organization in the industry.

2015

Intex is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Our above ground pool line begins with our world famous Easy Set® pools that are great for families purchasing their first pool, to our deluxe Ultra Frame™ pools that are beautiful, incredibly strong and large enough for the whole neighborhood to swim in! And no pool is complete without accessories. That's why Intex provides a full line, including sand filters, saltwater systems, filter pumps, cartridges and much more that will extend your customers' swimming season and keep them coming back for more. Ask your Intex representative for any of our product catalogs — we are confident that you will agree that Intex's product line-up is unmatched in meeting your needs.

THE VALUE OF AN EASY SET® POOL COMBINED WITH THE CLASSIC SHAPE OF A RECTANGULAR POOL!

For many consumers, a standard rectangular pool is their preferred choice. Intex oval shaped pools are a great bridge between Easy Set® and Rectangular Metal Frame pools, combining the benefits of both. It is quick and easy to assemble, with additional support from the frame, as well as a rectangular shape to maximize swimming area!

The frames are rust-proof coated, and assembled with snap-on joints eliminating the need for tools. The collection comes in two popular and family-friendly sizes. Perfect for narrower backyards, or lap swimmers! Available in 18' x 10' x 42" (5.49m x 3.05m x 1.07m) and 20' x 12' x 48" (6.10m x 3.66m x 1.22m) sizes.

Our 1,000 gal (3,785 L) filter pump included in the
18' x 10' x 42" (5.49m x 3.05m x 1.07m) Oval Frame Pool
set completely filters the pool's water in under 4 hours!

Ultra Frame™ Pools

INTEX® PREMIUM POOL LINE

These pools, with their unique frames, are stronger than traditional Metal Frame pools. They're easier to assemble because the shape allows the pieces to fit together so smoothly and securely that separate locking pins are not needed.

They come with a broad line of accessories guaranteed to make pool ownership and maintenance easier and enjoyable.

Some 16' x 48" (4.88m x 1.22m) Ultra Frame™ Pool sets come with the 1,200 gal (4.5 m³) per hour Sand Filter Pump, which promises to keep pool water in fantastic condition!

Ultra Frame™ Pools:

THE ULTRA FRAME™ COMES WITH THE ULTIMATE COMBINATION

For the ultimate combination of pool filtration, water sanitation, and convenience, these Ultra Frame™ pools come with our Krystal Clear™ Sand Filter Pump & Saltwater System Combo. No other system on the market combines the gentle, thorough, environmentally-sensitive filtration and sanitation properties of sand and salt.

Maintenance is incredibly easy since sand only needs routine backwashing and replacement every 5 years, and salt never needs replacement under normal conditions. To make daily operation even easier, the combo comes with a built-in 24-hour timer that runs the system automatically.

Efficient filtration is essential for a quality swim experience.
Who wants to swim in a dirty pool?

Intex's line of pumps and cartridges guarantee a cleaner pool with:
• Powerful pumps in several of our most popular pool sets
• Filter cartridges with thicker, heavier paper and more pleats
• Water inlet jets for enhanced water flow back into the pool

The results will be faster water circulation, improved filtration,
and best of all – a superior swim experience!

Powerful Motor

Sand Filters are one of the most popular ways to keep pool water clean. Not only is it effective, it saves on cost and time since the sand needs replacement just once every five years - making the sand filter system one of the easiest to maintain. As an alternative, Intex Glass Filter Media (item# 29058) may also be used in place of conventional sand.

POOL SANITATION SYSTEMS

KRYSTAL CLEAR SALTWATER SYSTEM™

The ECO-friendly Poolwater Sanitizer

The Krystal Clear Saltwater System™ combines a unique two-stage technology to sanitize pool water.

First, an undetectable level of natural swimmer-safe chlorine is produced when environmentally friendly natural salt is added to pool water and passes through a titanium electrolytic cell during the filtration process. The result is soft, fresh, clean water without the potential harsh side effects of packaged pool chemicals.

Second, with the E.C.O. (electrocatalytic oxidation) process, water molecules are split into highly powerful oxidants which destroy organic contaminants such as bacteria and algae. The combination of these powerful oxidants with natural chlorine results in the strongest and safest pool water sanitation.

This second process, unique to the Intex Saltwater System, provides consumers with an important benefit. The process of E.C.O. is so effective, the amount of natural chlorine needed and generated by the system is reduced by approximately 60%. Which means that your customers not only get the great benefits of a saltwater system, they enjoy it with much less chlorine than other saltwater systems generate!

KRYSTAL CLEAR™ OZONE AND SALTWATER SYSTEM

Professionals Know That The Ultimate Pool Sanitation Method Is Ozone.

Only Ozone provides virtually complete, instantaneous, odorless, all-natural sanitation of pool water. Ozone eliminates bacteria over 3,000 times faster than chlorine. And because it has up to 100 times the oxidizing power of chlorine, it cleans pool water without the chemical smell that swimmers often associate with chlorine.

Intex has brought this powerful technology together with the benefits of our saltwater system to provide your customers with the very best in above ground pool sanitation. By combining the incredible sanitizing strength of ozone with the great swimming comfort that saltwater systems provide, your customers can enjoy truly wonderful pool ownership and great swimming experience for years.

A totally effective, odorless, effortless, all natural solution to maintaining crystal clear, soft, clean pool water… from Intex!

COMBINATION FILTRATION & SANITATION SYSTEMS

KRYSTAL CLEAR™ POOLWATER SYSTEM

Sand Filters are one of the most desirable methods to keep pool water clear and sparkling. Not only does the all-natural, inexpensive sand do an excellent job of filtering the water, it needs replacement only once every five years, making sand filter the easiest maintenance filtration option on the market. As an alternative, Intex Glass Filter Media (item# 29058) may also be used in place of conventional sand.

Saltwater systems with E.C.O. (electrocatalytic oxidation) are known for their ability to keep pool water clean and safe, while eliminating the harshness of traditional packaged chlorine.

Intex has combined these two excellent systems into one product, providing above ground pool owners with ONE low cost, low maintenance system that will keep pools clean, safe, and comfortable for swimmers. Both systems are controlled automatically with one 24-hour timer to make daily operation carefree!

MAGNETIC LED POOL-WALL LIGHTS

Lighting up an above ground pool has always been difficult. Unlike in-ground pool owners, who could flip a switch to light up their pools, above ground pool owners had to either cut a hole in their sidewall, risking leaks and damage to their pool or use a floating light.

The Intex LED light uses magnetic technology to create a light system that safely generates low voltage current THROUGH the pool's sidewall to a powerful LED light inside the pool. The advanced, energy efficient LED light delivers more brightness to your pool than a conventional 50-watt halogen pool light. So now, above ground pool owners can light their pools up just like in-ground pool owners, but without the expense and damage of cutting a hole in their pool.

The LED Pool-Wall light is the ultimate in flexibility and can be attached to any sidewall in any location – and be easily moved to different parts of the pool for different lighting effects. If the inner light unit becomes separated from the outer power source, it will automatically float to the surface for easy retrieval.

Beauty, convenience, innovation, performance, and value – all part of the Intex LED Pool-Wall light!

COMMITMENT TO EXCELLENCE

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN15649 "Floating leisure articles for use on and in the water" (European standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)
- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)
- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric Spas" (USA standard for Spa)

Intex's commitment to Excellence extends to helping our environment and supporting the ecosystem. It begins with product design. Intex's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

Intex also operates one of the most comprehensive recycling programs in the industry. We are the first company in China to successfully obtain a license to ship consumers' returns in the original package back to China to be recycled. Therefore, used materials and product returns are prevented from going to landfills and instead re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

Intex designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption.

As a manufacturer, Intex knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our Factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. Intex has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, Intex has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at Intex are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.

TRADEMARKS

®™ Trademarks used in some countries of the world under license from Intex Marketing Ltd. to Intex Trading Ltd., Intex Development Co., Ltd. and Intex Recreation Corp.

ALL ELECTRICAL ACCESSORIES:

• Conforms to UL/CSA standards (110-120V models)
• CE approved (220-240V models)
• TUV-GS approved (GS designation models)

As a part of our program of product development and improvement, the detail specifications of the products shown in this catalog may be changed. For current specifications on any product, please contact your supplier of Intex products.

Intex introduces three additional designations in our catalog that highlight additional safety features that are included on a number of our pools. These designations are:

EG Pools with these letters after the 5-digit item code incorporate a GFCI (ground fault circuit interrupter) built into the filter pump. The GFCI unit is an added safety feature and is designed to instantly shut the pump off if electrical current comes into contact with water. GFCI units are included in all 110-120V filter pumps and saltwater systems.

EH Pools with these letters after the 5-digit item code feature ANSI/APSP-16 certified dual suction outlets in accordance with the latest ANSI/APSP-7 standard for Suction Entrapment Avoidance and the U.S. Pool and Spa Safety Act, and provide improved water circulation. These pools also feature pumps with an integral GFCI.

GS Pools with the GS designation after the 5-digit item code either incorporate an RCD built into the 220-240V filter pump, or contain filter pumps that operate with a 12V step-down transformer, which reduces the voltage dramatically while retaining the same performance level as the 220-240V version. Both are designed to meet special national requirements in some EU markets.
