ABOUT US

The Intex Family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. Backed by excellent Customer Service, Intex also provides first-rate after sales support. The 100+ independently owned and locally operated companies that make up the Intex Family all embrace this commitment to quality, service and price and are committed to working together to ensure the satisfaction of the families and individuals in countries across the globe who enjoy these products. This has become the hallmark of Intex around the world.

As a true industry leader, Intex boasts state of the art factories, trained and motivated people, products that meet rigorous testing requirements, and a Customer Service organization that will go extra lengths to ensure our customers are satisfied and happy with their purchases.

When you purchase an Intex product you can be confident that you are buying the best product, at the best price, backed by the best Customer Service organization in the industry. Intex is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Intex's Wet Set® line offers hundreds of backyard, pool and lake inflatables designed for every budget and age group. With products ranging from colorful and fun beach balls to floating islands for you and your friends to lounge on, no summer is complete without them.

For boating enthusiasts, we offer a line of boats that are perfect for one person relaxing in a pool on a lazy afternoon, to 5-person boats designed for serious camping trips. Ask your Intex representative for any of our product catalogs — we are confident that you will agree that Intex's product line is unmatched in meeting your needs.

THE GLOBAL ANGEL WINGS PROJECT

Colette Miller created the Global Angel Wings Project in 2012, in the streets of Los Angeles, the City of Angels. They were painted to remind humanity that we are the angels of this earth. They are human sized interactive public art, wings that people take photos with and thus become part of the work. The first pair was just street art but the response was natural, immediate, and spontaneous – from people of all sorts and backgrounds. Colette has painted wings globally – Kenya, Australia, Taiwan, France, Cuba, Juarez Mexico, and more, and many in the USA. Though some are commissioned and others gifted, the wings themselves are free to the world, never owned by anyone, not even Colette, though they are of her provenance and her work.

SPORT SERIES

FEATURES

-  Lenses incorporate advanced UV protection to reduce the sun's damaging UVA & UVB rays.
-  Lenses are treated with a special coating that keeps them clear underwater, ensuring 100% visibility.
-  Products incorporate hypoallergenic materials that protect users from potentially irritating latex.
-  Snorkel is configured to prevent water from flowing into the top, allowing the diver to easily swim below the surface.
-  Seals use silicone, ensuring a softer, more form fitting product that is comfortable and water-tight.
-  Mask contains enhanced glass which is stronger and more transparent than standard models.

COMMITMENT TO EXCELLENCE

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- EN 16927, Safety and test methods for mini pools (European standard)
- EN 16582, Safety and test methods for domestic swimming pools other than mini pools (European standard)
- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN ISO 25649 "Floating leisure articles for use on and in the water" (European/ International standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- EN 60335-2-60 " Safety of household and similar electrical appliances, particular requirements for whirlpool baths and whirlpool spas" (European standard for portable SPA)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)

- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)
- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric spas" (USA standard for Spa)

Intex's commitment to excellence extends to helping our environment and supporting the ecosystem. It begins with product design. Intex's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

Intex also operates one of the most comprehensive recycling program in the industry. We are one of the earliest companies in China to successfully obtain a license to ship consumer's returns in the original package back to China to be recycled. Our manufacturing waste repurposing program prevents used materials and scraps from going to landfills and instead they are re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

Intex designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption. As a manufacturer, Intex knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. Intex has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, Intex has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at Intex are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.
